

# RUFF WEAR size matters

Please use our sizing charts only as the first step in estimating the correct size; all products should be tried on the dog.

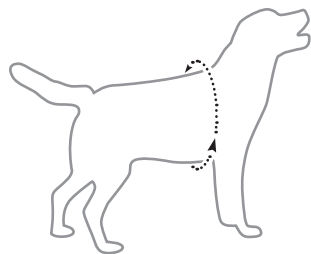

## SAFETY

**FIT TIPS** The safety vest features a comfort fit to allow the dog an unrestricted full range of motion.

**track jacket™**  
COMFORT FIT

DOG GIRTH <sup>1</sup>			
SIZE	S	18"-24"	46-61 cm
	M	24"-32"	61-81 cm
	L	32"-48"	81-122 cm

**DOG'S GIRTH**  
measurement around  
widest part of rib cage

## HARNESSES

**FIT TIPS** The harness should have an all-around snug fit to prevent movement or shifting of the harness. There are five points of adjustment on the harness to allow for ample fine tuning of the fit: three at the chest, one at the girth, and one at the belly.

	L	32"-48"	81-122 cm

## APPAREL

**FIT TIPS** Each piece of apparel has either a performance fit or a comfort fit. The *Cloud Chaser* and *Climate Changer* are designed to have a performance, or snug fit to keep the dog insulated and warm. The *K-9 Overcoat*, *Sun Shower* and the *Swamp Cooler* are designed to have a comfort fit for a full range of motion.

**In between sizes?** For Performance Fit apparel, choose the smaller size for a snug fit. For Comfort Fit, choose the larger size for a roomier fit.

## PACKS

**FIT TIPS** The pack's harness should have an all-around snug fit for a stable load and to prevent movement or shifting of the saddlebags. Be sure that each saddlebag has an equal and balanced load. When fitting the Palisades Pack, remove the saddlebags from the harness for easy fitting and adjustment. Then reattach the saddlebags when ready to go.

**In-between sizes?** Choose the smaller pack for a lighter load and less bulk. Please do not use saddlebag capacity as your only sizing consideration; use the girth fit for best results.

**Because our four-legged friends come in so many different shapes and sizes, all Ruff Wear boots, packs, life jackets, apparel, harnesses, and collars should be tried on the dog to determine the correct size. Please use our sizing charts only as the first step in estimating the correct size.**

**BOOTS**

**FIT TIPS** Boots will be snug in the paw to prevent twisting but should have enough room for the paw to spread out during activity. Be patient during the first fitting of dog boots. Give the dog plenty of time to get used to wearing boots. If the boots fit, immediately begin an activity—like a dog walk—to take his mind off the boots. Soon he'll associate the boots with fun.

**LIFE JACKETS**

**FIT TIPS** Both Float Coats should fit snugly. The tight fit ensures that the coat remains on the dog when needed most.
